

## 5. Establish a pre-negotiated platform for tools and supplies

Actions	Main actor	When
<p>Transform the current ACT-A into a truly global end-to-end platform for vaccines, diagnostics, therapeutics, and essential supplies, shifting from a model where innovation is left to the market to a model aimed at delivering global public goods. Governance to include representatives of countries across income levels and regions, civil society, and the private sector. R&amp;D and all other relevant processes to be driven by a goal and strategy to achieve equitable and effective access.</p>	National governments/ member states	Medium-term
<p>Ensure technology transfer and commitment to voluntary licensing are included in all agreements where public funding invested in research and development.</p>	National governments	Medium-term
<p>Establish strong financing and regional capacities for manufacturing, regulation, and procurement of tools for equitable and effective access to vaccines, therapeutics, diagnostics, and essential supplies, and for clinical trials:</p> <ul style="list-style-type: none"> <li>• based on plans jointly developed by WHO, regional institutions, and the private sector,</li> <li>• with commitments and processes for technology transfer, including to and among larger manufacturing hubs in each region,</li> <li>• supported financially by International Financial Institutions and Regional Development Banks and other public and private financing organizations.</li> </ul>	National governments / WHO / IFIs / regional institutions / private sector	Medium-term
